

Premium Architectural Solutions
for Inspired Residential Applications

Explore a Diverse Range of Industry-Leading Brands & High-Performance Manufactured Products

Westlake Royal Stone Solutions offers an extensive portfolio of architectural stone veneer to meet the needs of any project level, style and lifestyle. No other material offers the depth, complexity of color, pattern, and tactile distinction. Our product portfolio provides limitless design opportunities that suit a wide range of styles and budgets, making it easy to enhance your project's aesthetic using natural textures and authentic color palettes that are virtually indistinguishable from stone and other natural materials.

Partner with Us

Backed by decades of industry leadership and manufacturing expertise, Westlake Royal is committed to providing products that inspire, attract, and add value. With five diverse stone brands to choose from, no other manufacturer can match the range and selection of design solutions we offer.

Scale & Availability | We manufacture the products you need in the regions where you build and have the capability to scale up as your business grows.

Brand Equity | As the original manufacturers of architectural stone veneer, we take pride in having built North America's most recognized brands. We can ensure you have the options to fit your budget and make your project look great.

Technical Expertise | Our national sales and technical teams put an unmatched depth of practical expertise in your hands, from inception to installation.

Design Solutions | Through ongoing research and development, we not only design products that are innovative and beautiful but are engineered to solve design and installation challenges.

National Footprint | Unlike most local and regional manufacturers, we have partnerships that span across the country, allowing for popular products to be stocked on the ground in each market.

Project Ownership | From specification and technical detailing, to bidding, to installation support, we will be there every step of the way.

The Start of Something Beautiful

Believability is at the very core of our company philosophy. For over 50 years, Eldorado Stone has been refining the art of architectural stone veneer. When you set your eyes on Eldorado Stone, it looks authentic, natural and—most of all—believable. Take a closer look at our products and you'll see the difference: unmatched depth and variation of colors, crisp textural details and one of the most extensive selections of stone profiles and colors in the world.

DUTCH QUALITY STONE.

Craftsmanship Born of Tradition.

With equal parts pride and precision, Dutch Quality craftspeople create a wide selection of stone styles, colors and sizes—even thoughtfully designed accessories—for your interior, exterior, residential and commercial projects.

Our original master molds are meticulously crafted to capture the rich beauty and complex character of natural stone. It’s a process requiring both art and technology.

Not to mention, the steadfast support of our customers. With customer service that’s as finely hewn to the values of “Dutch” quality as our products are. It’s our solemn commitment: *To make certain we’re always aligned with your project, budget and timing. And above all, your style.*

Otherwise, it just wouldn’t be Dutch Quality Stone.

Texture for Living.

Stone has a unique intricacy that is simply captivating. With such diversity in shape, color and texture it's easy to see why it can dramatically enhance any exterior or interior space.

Our commitment to craftsmanship can be seen within every textural detail, countless hours spent hand-chiseling each and every natural stone before it was carefully replicated through our proprietary mold techniques. At StoneCraft we honor the masonry traditions of the past and promise to deliver quality and affordability with every stone we make.

VERSETTA STONE.

The Beauty of Stone, the Simplicity of Siding.

Versetta Stone Siding is the first brand to offer the beauty of stone in an easy-to-install product. Building off a rich heritage in manufactured stone, Versetta Stone Siding accurately replicates the textures and random colors of natural stone to complement interior and exterior applications. Any builder can now quickly install mortarless stone siding to elevate the quality and curb appeal of their homes.

Versetta Stone LedgeStone Style in Sand

Our Products

Versetta Stone brings new life to traditional stone walls by simplifying the installation process. Its mortarless, panelized design can easily be installed by a siding contractor or carpenter with screws or nails. This opens up an entirely new world of design possibilities for exterior and interior applications, allowing the natural look of stone in unexpected places.

- Tongue-and-groove interlocking system installs tight and feels solid
- Can install in any weather, unlike mortared stone applications
- One of the best moisture management systems available
- Hand-painted artistry with the realism of natural stone
- Great for interior applications like accent walls, backsplashes and fireplaces without creating a mess

Drain-N-Dry™ Lath

Industry-Leading, Advanced Moisture Control.

Drain-N-Dry Lath, the reinvention of the draining and drying wall system that unifies each critical component into a single, high-performance product—one that requires less fasteners and fewer penetrations. By seamlessly integrating a chemical and corrosion resistant fiberglass lath, a 10mm rainscreen and a secondary water-resistant barrier into individual 150 sq. ft., easy-to-cut lightweight rolls, Drain-N-Dry Lath reduces your installation time to help you quickly deliver a final product that will last the test of time.

Features & Benefits

- Installs fast, providing two additional component systems in one pass: rainscreen and lath
- Eliminates the need for a secondary layer of Water Resistant Barrier
- Manages moisture through drainage, drying and moisture vapor control
- Nothing to rust or corrode and the ultimate in alkaline resistance
- A fastener band every 6" ensures solid connection to structure and easy visual inspection of fastener spacing
- Built in self-furring ensures proper mortar embedment & scratch coat thickness
- Extremely light and easy to transport, move and install from scaffolding
- Installs with nails or staples

Flex-N-Dry™ Tape

The Superior Soft Joint Solution.

Flex-N-Dry Tape is a UV stable, pre-compressed, self-expanding, flexible and flame-resistant soft joint alternative. It is a high-density polyurethane foam impregnated with a modified acrylic resin and treated with a pressure-sensitive adhesive on one side for ease of installation. Flex-N-Dry Tape self-expands to fill a $\frac{3}{8}$ "– $\frac{5}{8}$ " joint creating an elastic, vapor-permeable and weather-tight seal.

Features & Benefits

- Vapor permeable—allowing moisture vapor to escape; walls dry faster
- Installs in one step faster than a standard soft joint with no casing bead, no backer rod and no caulk or sealant
- Reduces fastener penetrations in the primary water resistive barrier reducing risk of leaks
- Provides a clean, finished look without artistic work of a caulk gun
- Adhesive secures tape during expansion and speeds installation time
- Acts as a flexible soft joint between dissimilar materials absorbing movement and reducing the risk of cracking in masonry & stucco

KINDRED

OUTDOORS + SURROUNDS

Indoor & Outdoor Spaces that Draw People Near.

Distinguished by craftsmanship, accentuated by firelight and designed to gather round, Kindred Outdoors & Surrounds creates memorable spaces that bring people together through thoughtful composition and functionality. With hand-forged fire bowls, fireplace surrounds and outdoor kitchens, friends and family can commune, converse, and unwind in comfort both inside and outside of the home.

Infinite™ Fire Bowl in Oyster Shell with a Honed Finish

Artisan Fire Bowls

Made from strong, glass fiber-reinforced concrete and expertly hand-sanded through a four-step finishing process. Each fire bowl ships complete with lava rock and an industry-leading burner for use with either natural gas or liquid propane.

Fireplace Surrounds

Fireplaces forged with the heritage of craftsmanship. Available in four colors designed to replicate various types of natural limestone. Easy-to-install with no additional wall support needed.

Signature Kitchens & Outdoor Cabinets

Easily-customizable installation solution for creating a stone masonry outdoor kitchen using modular cabinetry units. Installs in less than half the time it takes for traditional building techniques.

Outdoor Fireplaces & Fire Pits

The perfect centerpiece to your outdoor space. Choose from unique design options and fuel types. Each fireplace and fire pit is ready to be dressed with stone or brick for an impressive custom masonry appearance.

Westlake

Royal Roofing Solutions™

Beautiful, Strong, Long-Lasting.

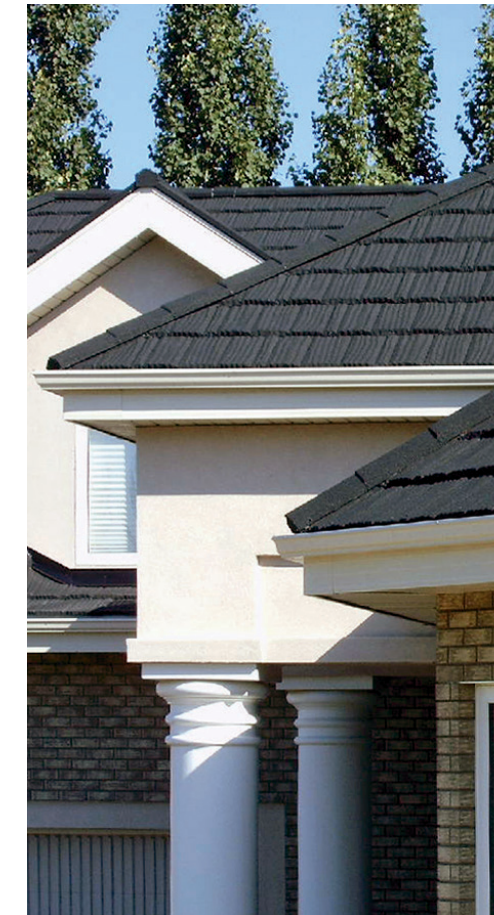

Westlake Royal Roofing is a recognized, national leader in durable and sustainable clay, concrete, and steel roof systems and components. Our products deliver the critical features and benefits that will help insure your project has a beautiful, durable, energy-efficient roof.

A roof is not a mere tile covering but a dynamic, performing system that protects, breathes and ages with the structure. By studying roof performance characteristics and failure points, we have created Westlake Royal Roofing Components—a collection of components that, when installed properly and used comprehensively, result in a tile roof that lasts longer and increases energy savings.

Newpoint Concrete Roof Tile is beautiful, enduring, and offers superior features such as Class A fire protection and a best-in-class warranty, which, for select tile, includes hail coverage! Class 3 and 4 Hail rated select products are certified with FM 4473 Impact hailstone testing.

Unified Steel Stone Coated Roofing enhances curb appeal while providing durability, performance and protection. Designed to last almost three times as long as asphalt shingles,¹ Unified Steel offers one of the most comprehensive, fully transferable roofing warranties in the business today. Coverage includes 120mph Wind and Class 4 Hail protection.²

US Tile Clay Roof Tile is a symbol of premium roofing, with unsurpassed beauty that will not fade over time and the highest standard of sustainability and craftsmanship. Known for its long-term durability and longevity, US Tile's modern manufacturing techniques enhance this durability, giving customers a roofing product that's designed to last.

Because Westlake Royal Stone Solutions product finishes replicate natural stone, variations should and can be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques—and actual viewing conditions—can alter perception of color. It is recommended to obtain a sample of a finish before placing an order.

If you would like more information on prices, availability of products, the name of your local distributor or answers to any questions not covered in this brochure, please contact us. We would be happy to assist you with your building plans. Detailed installation instructions, technical information, test data and specifications are available upon request.
