

**AMERICAN INSTITUTE OF ARCHITECTS
Continuing Education System**

AIA/CES Registered Provider Program Summary

Course Description

Explore how stone veneer contributes to biophilic design principles and helps architects specify for changing residential building trends.

Learning Objectives

- Review performance and installation benefits of architectural stone veneer (ASV).
- Explore how ASV can be used in biophilic design to connect occupants to nature and improve wellness.
- Understand how ASV provides lived-in-luxury, flexible functionality, and a nod to urban aesthetics in both residential and commercial design.
- Examine the wide range of uses for ASV, from interior to exteriors and modern to traditional design, as well as two case studies where the product was used.

Target Audience

Architects, owners, specifiers and other design professionals in the residential, commercial, or multi-family housing markets.

Instruction Method

Facilitator may use a PowerPoint presentation or handouts, depending on audience size.

Audio Visual Required

A screen and electrical power are required. The facilitator will provide laptop and projector, as necessary.

Facilitator Qualifications

All facilitators will be Westlake Royal Stone Solutions sales personnel, who have undergone training on CES guidelines and presentation skills.
