**AMERICAN INSTITUTE OF ARCHITECTS
Continuing Education System**

AIA/CES Registered Provider Program Summary

Course Description

Explore manufactured stone veneer as an inspirational design element, born from innovative technology and creative solutions.

Learning Objectives

- Identify the environmental and economic benefits of specifying manufactured stone veneer in architectural projects.
- Compare and contrast manufactured stone veneer to natural stone.
- Assess the durability and constructibility of manufactured stone veneer.
- Analyze how manufactured stone veneer can be specified in projects.

Target Audience

Architects, owners, specifiers and other design professionals in the residential, commercial, or multi-family housing markets.

Instruction Method

Facilitator may use a PowerPoint presentation or handouts, depending on audience size.

Audio Visual Required

A screen and electrical power are required. The facilitator will provide laptop and projector, as necessary.

Facilitator Qualifications

All facilitators will be Westlake Royal Stone Solutions sales personnel, who have undergone training on CES guidelines and presentation skills.
