

## AMERICAN INSTITUTE OF ARCHITECTS Continuing Education System

AIA/CES Registered Provider Program Summary

### Course Description

Discover how incorporating architectural stone veneer into your project can help promote well-being, sustainability, and design versatility.

### Learning Objectives

- Evaluate the benefits of designing with architectural stone veneer.
- Compare the features of architectural stone veneer to those of natural stone.
- Discuss how architectural stone veneer supports sustainable and resilient design.
- Explore the benefits of biophilic design and its impact on modern lifestyles.
- Examine the use of architectural stone veneer in construction through case studies.

### Target Audience

Architects, owners, specifiers and other design professionals in the residential, commercial, or multi-family housing markets.

### Instruction Method

Facilitator may use a PowerPoint presentation or handouts, depending on audience size.

### Audio Visual Required

A screen and electrical power are required. The facilitator will provide laptop and projector, as necessary.

### Facilitator Qualifications

All facilitators will be Westlake Royal Stone Solutions sales personnel, who have undergone training on CES guidelines and presentation skills.
