

AMERICAN INSTITUTE OF ARCHITECTS Continuing Education System

AIA/CES Registered Provider Program Summary

Course Description

Design guidelines for sustainable manufactured stone veneer buildings, including product innovations and industry related education.

Learning Objectives

- Discover the benefits of manufactured stone veneer and examine the manufacturing process.
- Explore advancements in manufactured stone veneer.
- Discuss different project application types and run through important project planning steps.
- Analyze key installation detailing for high performance buildings.
- Understand the benefits of large dimension stone veneer.

Target Audience

Architects, owners, specifiers and other design professionals in the residential, commercial, or multi-family housing markets.

Instruction Method

Facilitator may use a PowerPoint presentation or handouts, depending on audience size.

Audio Visual Required

A screen and electrical power are required. The facilitator will provide laptop and projector, as necessary.

Facilitator Qualifications

All facilitators will be Westlake Royal Stone Solutions sales personnel, who have undergone training on CES guidelines and presentation skills.
